ACROSS THE ISTHMUS

HOUSE IN COMMITTEE OF THE
WHOLE VOTES IN FAVOR OF
A LOCK CANAL.

ARGUES IN FAVOR OF PLAN

CONGRESSMAN BURTON OF OHIO
PRESENTS HIS VIEWS ON
PROPOSED DITCH.

Washington, June 16.—In committee of the whole the house by a vote of 110 to 36 voted in favor of a lock canal across the Isthmus of Panama, the amendment to this effect being presented by Representative Littauer of New York.

With members of congress sitting on the short steps in the aisles of the house around the space in front of the speaker's desk, with a large attendance, with the galleries filled, and with Burton of Ohio, pointer in hand, indicating by charts the difference between sea level and lock canal, the house presented every appearance of the class room of a great university.

Mr. Burton Thursday gave notice that when the item in the sundry civil bill was reached appropriating upward of \$25,000,000, he would ask for an hour in which to present his views on the lock level type of Panama canal.

He prefaced his remarks by stating that in the so-called Spooner law authorizing the expenditure of \$135,000,000 for the Panama canal and giving the president the right to inaugurate this movement and carry it to a successful conclusion, the type was left with the president with certain specifications and limitations.

He said lately there had been a strong agitation for a sea level canal and he believed the time had come when the question of type should be settled and the matter removed from the domain of controversy.

"It is not fair to the president and to the executive officers of the government," he said, "who have this enterprise in charge to say to them with one breath, 'proceed with the canal with all the speed you may,' and with another breath to say 'we haven't yet made up our minds what kind of a canal you shall build.' It is unjust to the subordinates who have gone to the Isthmus to give the best years of their lives and their best efforts to hamper and embarrass them by failing to decide this question."

Lock Canal Was Intended.

In reply to a question by Mr. Williams of Mississippi Mr. Burton said the necessary implication of the Spooner act was that a lock canal was intended.

Taking his position in front of the maps, Mr. Burton called attention to the vital difference between the two types and remarked that when the topography is understood it would be the very strongest argument for the lock level canal. He said if the banks would not cave, if large boats could go through without running against rocks at the side and could be properly steered, then a sea level canal would be the enterprise which would be naturally preferred. "But such a canal, convenient for modern shipping and prospective shipping would, in the judgment of those who have carefully studied the subject, cost the sum of \$400,000,000 or more and would exhaust twenty years and more of time in building."

He said thirty-four of the ablest engineers of the world were for the lock level type and he believed their judgment should be accepted.

Asked how he would fortify the canal, Mr. Burton said that if he had the ordering of it there wouldn't be a fort or a gun on the whole Isthmus. He would protect it wholly by neutrality, as the Suez canal is protected. This statement met with a round of applause. When he concluded he was tendered an ovation.

Mr. Bartlett of Georgia made a point against the amendment of Mr. Littauer. He insisted that the amendment was clearly new legislation and argued the question from that premise.

Mr. Olmsted (Pa.) thought the amendment was but a limitation of the appropriation and was clearly in order.

The chair, Mr. Watson (Ind.), held the amendment was in order and cries of "vote," "vote" were heard. Without further discussion, the Littauer amendment was adopted.

By a decisive vote the house refused to sanction the purchase of materials in the markets of the world for the Panama canal, the general position of the Republicans being that as the canal was to be built by American taxes the American workingman and the American manufacturer should have the advantage.

BODY AND SOUL SEPARATED.

Dr. Dowle Tells of Strange Happenings to Him.

Chicago, June 16.—John Alexander Dowle, testifying in the hearing of the Zion City controversy in Judge Landis' court, told of an instance when his body and soul became separated and in his spiritual being he distinctly saw his own dead body lying beneath a shroud. It occurred, he said, while he was fighting the liquor traffic in Melbourne and was regarded by him as a divine warning that he was about to die. At another time, the witness asserted, his spirit left his body and the angel Gabriel and the Virgin Mary were present in the realm visited by his spirit. The queer narration of life and death was brought out by Attorney Newman during cross-examination of Dowle. Following the vision, the witness continued, two acquaintances came to him and told him they had dreamed that he was to be assassinated. Then, while alone in the tabernacle, came a voice warning him to "arise and go." "I went," said Dowle, "and while on my way home I heard an explosion. The next day I found that my enemies had tried to kill me with dynamite. The back of the tabernacle had been wrecked."

CONGRESSMAN LESTER HURT.

Georgia Representative May Die of His Injuries.

Washington, June 16.—Representative Rufus E. Lester of Georgia was seriously and probably fatally injured by falling through the skylight of the Cairo apartment house on Q street, between Sixteenth and Seventeenth streets northwest, where he has apartments. Mr. Lester had gone to the roof of the building shortly after 8 p. m. to look for his two young grandchildren and apparently missed his footing, falling through the skylight about thirty feet to the eleventh floor. In the fall he sustained internal injuries and both legs were broken, his right leg being crushed fearfully. He was picked up by those who rushed to where he lay when they heard the fall, and carried to his rooms. There was a consultation of physicians and it was admitted that there was very little chance of his recovery. The doctors stated that it might be twenty-four hours before the outcome could be determined.

Mr. Lester had not been in good health for some time. He was partially paralyzed several years ago. Mr. Lester is sixty-eight years old.

FOUR MORE EARTHQUAKES.

San Francisco and Oakland Again Shaken.

San Francisco, June 16.—Two distinct earthquake shocks in rapid succession were felt in this city and Oakland at 9:40 p. m. The movement seemed to be from west to east and was several seconds in duration. No damage was done. At 11:35 p. m. two more slight shocks were experienced.

HOLD A CONFERENCE

PRESIDENT ROOSEVELT TALKS OVER MEAT BILL WITH CONGRESSMAN ADAMS.

INDICATES WHAT HE WANTS

CHIEF EXECUTIVE TELLS WISCONSIN MAN WHAT CHANGES HE DESIRES MADE.

Washington, June 16.—As a result of an important conference held at the White House a change has taken place in the situation which may make for a solution of the difficulty in which the house committee on agriculture found itself after the president had indicated that the committee's substitute for the Beveridge amendment was wholly inadequate and unsatisfactory. The participants in the conference besides the president, were James B. Reynolds, who assisted in making the packinghouse inquiry for the president; Solicitor McCabe of the department of agriculture and Representative Adams of Wisconsin.

The president indicated just what he wanted written into the law. Mr. Adams said he would be perfectly willing to accept the suggestion made by the president and would work to that end in the committee. The president told him frankly, as he told Chairman Wadsworth Thursday, that the substitute as prepared by the majority of the house committee, was entirely unsatisfactory, and, to his mind, absolutely inadequate to meet the requirements of the situation. He objected particularly to the court re-paragraph, which, he thought, ought to be eliminated.

The president said to Mr. Adams he was not trying for any particular form in the proposed law, but he was after a measure that would be effective and adequate and proposed to get it if that were possible. The amendments the president suggested were satisfactory to Representative Adams, who returned to the Capitol to take up the matter with his colleagues.

CORRESPONDENCE MADE PUBLIC.

Letter of President Roosevelt to Chairman Wadsworth.

Washington, June 16.—Chairman Wadsworth of the house committee on agriculture has made public the correspondence between President Roosevelt and himself regarding the meat inspection bill prepared by the committee.

The president in his letter says that almost every change in the house amendment was for the worse as compared with the senate amendment, and in his judgment so framed as to minimize the chance of rooting out the evils in the packing business.

In his reply Mr. Wadsworth declares the president is "very, very wrong," in his estimate of the committee's bill, calls attention to provisions of the bill and concludes with an expression of regret that the president should feel justified in innuendo at least impugning the sincerity and the competency of a committee of the house of representatives.

"You have no warrant for it," says Mr. Wadsworth in closing.

In his letter to Mr. Wadsworth President Roosevelt says:

"I have gone over your bill very carefully and not only obtained a report from Mr. McCabe, as I told you I would, but also obtained a report from Mr. Reynolds on it. I am sorry to say the more closely I investigate your proposed substitute the worse I find it. Almost every change is one for the worse; so that it hardly seems necessary for me to enumerate them. Perhaps the amendment as you have now drafted it is not quite as bad as it was when you submitted it to me in the first instance, but it is very, very bad. There seems to be one point in which it is possible that the amendment is even worse than the original amendment, if, as seems likely, there is no provision for making plants accessible at all hours to the inspectors. In any event I am sorry to have to say that this strikes me as an amendment which, no matter how unintentionally, is framed so as to minimize

the chance of rooting out the evil in the packing business.

May Suit the Packers.

"Doubtless it suits the packers, who object to a thoroughgoing inspection, much better than the senate amendment, and I have no doubt that not only the packers, but their allies in business and those stockgrowers who are influenced by them would prefer it. But I am convinced it would, in the long run be a heavy blow to the honest stockraisers and the honest packer to adopt its provisions, rather than the far better ones contained in the senate amendment, for as compared with the senate amendment, this proposed amendment, which you tell me is that of the majority of the house committee, would hamper in the most grossly improper fashion the secretary of agriculture in doing the work which you have appointed him to do and will prevent even so much of this work as can be done at all from being well and thoroughly done."

"If the bill should go through in the form that the majority of your committee proposes, it might be that I should sign it as working a certain slight improvement over the present law; but, if so, I should accompany it by a memorandum explicitly stating how grave the defects were and I cannot even promise to sign it, because the provisions (about the courts as well as about other matters) are so bad that, in my opinion, if they had been deliberately designed to prevent the remedying of the evils complained of, they could not have been worse."

"It seems to me that the surest way to keep our foreign trade from us, and, indeed, our interstate trade likewise in a thoroughly unsatisfactory condition, and to prevent its assuming the position which it formerly had, is to enact the law in the shape proposed in the amendments submitted to me by you."

One Thousand Men Affected.

Pittsburg, June 16.—The mines of the Cornell, Creighton, McFetridge and McKean Coal companies in the neighborhood of Tarentum, Pa., have closed down on account of the refusal of the operators to pay the Pittsburg scale. Pickets have been stationed about the mines, but no trouble is expected. About 1,000 men are idle.

Habit-forming Medicines.

Whatever may be the fact as to many of the so-called patent medicines containing injurious ingredients as broadly published in some journals of more or less influence, this publicity has certainly been of great benefit in arousing needed attention to this subject. It has, in a considerable measure, resulted in the most intelligent people avoiding such goods and medicines as may be fairly suspected of containing the injurious ingredients complained of. Recognizing this fact some time ago, Dr. Pierce, of Buffalo, N. Y., "took time by the forelock," as it were, and published broadcast all the ingredients of which his popular medicines are composed. Thus he has completely forestalled all harping critics and all opposition that might otherwise be urged against his medicines, because they are now of known composition. Furthermore, from the formula printed on every bottle wrapper, it will be seen that these medicines contain no alcohol or other habit-forming drugs. Neither do they contain any narcotics or injurious agents, their ingredients being purely vegetable, extracted from the roots of medicinal plants found growing in the depths of our American forests and of well recognized curative virtues.

Instead of alcohol, which even in small portions long continued, as in obstinate cases of diseases, becomes highly objectionable from its tendency to produce a craving for stimulants, Dr. Pierce employs chemically pure, triple-refined glycerine, which of itself is a valuable remedy in many cases of chronic diseases, being a superior demulcent, antiseptic, antiferment and supporting nutritive. It enhances the curative action of the Golden Seal root, Stone root, Black Cherrybark and Bloodroot, which, together with the glycerine, form a valuable remedy in all cases of chronic diseases, being a superior demulcent, antiseptic, antiferment and supporting nutritive. It enhances the curative action of the Golden Seal root, Stone root, Black Cherrybark and Bloodroot, which, together with the glycerine, form a valuable remedy in all cases of chronic diseases, being a superior demulcent, antiseptic, antiferment and supporting nutritive.

RAILROAD NEWS

Items of Interest Regarding Railroads and Railroad Employees

The Minnesota & International railway, one of the branches of the Northern Pacific system, running from Brainerd via Bemidji to Ripple, has just issued a booklet with colored half-tones and descriptions of rural scenes along the route.—St. Paul Dispatch.

Gollmar Bros. Circus

The circus will be here in a few days. The usual crowd of small boys, and big boys too, will be on hand to witness the arrival of the circus trains and watch the unloading. When a town ostracizes the circus 'tis a sad day for that town. When the great public which includes the small boy and the big ones too, turns its back on the circus, there is a screw loose somewhere. If a town gets beyond consideration for the clowns and looks bitterly upon the acrobats, gymnasts and dashing riders in the rings and pay a passing glance to the elephants, turns up its nose at the monkeys and mocks the roar of the lions, it is ready for the finishing touch. It's lots of pleasure to go to a circus; there you will see the bald-headed old fellows sitting with their grandsons living over their youthful days. Circus day is a big day and will be observed by the teeming thousands. So welcome Gollmar Bros. Greatest of American Shows, Royal Roman hippodrome, million dollar menagerie and congress of all earth's nations when they arrive here on Saturday, June 23.

One dollar will buy you the best pair of nickel plated shears that can be produced from the best steel by the most skilled labor in the world.

KEEN KUTTER

scissors and shears are made from only the highest grade crucible steel which is carefully picked and selected for perfect material. They are carefully and finely adjusted and will cut keen and sharp as a razor; unlike others, they retain their edge, and even though constantly used they will require sharpening very seldom, if ever. When you buy KEEN KUTTER scissors and shears you know you are getting the best.

Indian for "Come Into the Wilderness" Title of New Booklet Sent Out by the M. & I.

CERTAINLY IS A BEAUTY

Done in Colors and Tinted Half Tones Illustrate the Publication

"A little booklet for those who love nature and the wilds.

"Suggested by W. H. Gemmel, General Manager, Minnesota & International Railway, who chose the odd title and suggested the pretty Indian Legend, which was secured from the old Otchipwe Indians and written into English by Curtis L. Mosher.

"After which was added a little chapter on the beautiful country in Northern Minnesota, reached by the line of the Railway.

"The whole being done into a handsomely printed booklet, by the Wright & Joes Company, those good pressmen, abiding in Milwaukee."

Thus reads a handsome slip in the front of the new booklet, issued by the Minnesota & International railway company, advance copies of which have been received in this city. The booklet is certainly a beauty and is profusely illustrated with tinted half tones depicting scenes on the lakes and in the Indian villages of Northern Minnesota. The Legend "When the Winter-Maker Devoured the Sheltering Forests" beautifully told and handsomely illustrated, occupies the front portion of the book.

The second portion, carrying the name of the pamphlet as a sub-title is devoted to setting forth the charms of the region through which the Minnesota & International railway passes. After a few days copies can be secured upon application to the general offices of the Minnesota & International.

Following The Flag.

When our soldiers went to Cuba and the Philippines, health was the most important consideration. Willis T. Morgan, retired commissary sergeant, U. S. A., of rural route 1, Concord, N. H. says: "I was two years in Cuba and two years in the Philippines, and being subject to colds, I took Dr. King's New Discovery for consumption, which kept me in perfect health. And now, in New Hampshire, we find it the best medicine in the world for coughs, cold, bronchial troubles and all lung diseases." Guaranteed at H. P. Dunn & Co., druggists, Brainerd, Minn. Price 50c and \$1.00. Trial bottle free.

POISONED BY ARSENIC.

Farmer Dead and His Wife and Daughter Ill.

Zion City, Ill., June 16.—Hiram F. Deukeling, a farmer living one mile south of this city, is dead and his wife and daughter, Hazel, aged twenty years, are seriously ill as the result of eating cornmeal muffins. The mother and daughter will recover. Indications point to arsenical poisoning, but how the poison got into the muffins is a mystery.

Mrs. E. J. Schlegel, Portland, Ore., suffered much with stomach trouble and pain in the side. She says: "Dr. Adler's Treatment has helped me very much. There is no soreness in my side any more. I had doctored 5 months before using your medicine." Large bottles at Johnson's Pharmacy.

RELOCATING CENTRAL

Here Looking Over Proposed Locations For Northwestern Telephone Exchange

H. B. Stimson, of the engineering department of the Northwestern Telephone company is in the city and he and Manager E. R. Jones are looking over several proposed new location for the central office. They desire rooms on the second floor and want to get as near the geographical center of the system as possible. Their report will go to the head office for approval before any action is taken in the matter. Mr. Stimson is also making plans for a complete new system here, but it is not expected that the work of rebuilding will be commenced for some months, if at all. The plans of the engineers, together with estimates of cost, must go to the business department for approval and then it usually takes several months to get material.

Deadly Serpent Bites are as common in India as are stomach and liver disorders with us. For the latter however there is a sure remedy: Electric Bitters; the great restorative medicine, of which S. S. Brown, of Benettsville, S. C. says: "They restored my wife to perfect health, after years of suffering with dyspepsia and a chronically torpid liver." Electric Bitters cure chills and fever, malaria, biliousness, lame back, kidney troubles and bladder disorders. Sold on guarantee by H. P. Dunn & Co., druggists, Brainerd, Minn. Price 50c.

10c Extra, for a sack of

is a good investment.

BODY ARRIVES TOMORROW

Ben and Clark Smith Expected Home Tomorrow With the Remains of Their Mother

Justin Smith arrived from Minneapolis last evening on the 11:15 train accompanied by his bride. They received the sad news of Mr. Smith's mother's death while at Minneapolis and left at once for Brainerd.

Ben and Clark Smith are on their way from Bozeman, Mont., with the remains of their mother and expect to arrive here tomorrow. The funeral services will be held at the Congregational church, Rev. Allin officiating. The hour for the funeral will be four o'clock in the afternoon and it will be held either Sunday or Monday, probably the latter.

An Alarming Situation frequently results from neglect of clogged bowels and torpid liver, until constipation becomes chronic. This condition is unknown to those who use Dr. King's New Life Pills; the best and gentlest regulators of stomach and bowels. Guaranteed by H. P. Dunn & Co., druggists, Brainerd, Minn. Price 25c.

NEW TIME CARD

ON THE M. & I.

Time Card Covering the Ripple Extension Will Probably be Issued Soon

PROBABLY NO CHANGE HERE

On Account of Northern Pacific Conditions It Is Impractical To Change

Work on the ballasting of the Ripple extension of the Minnesota & International is progressing finely it is expected to be completed in time to install regular service thereon July first. The matter of a new time card is up with the general offices now and it will probably be issued within the next week. The connections are such at Brainerd that it is thought by local railroad men that the hour of arrival and departure from here will remain practically as at present, trains simply running through to Ripple and leaving there early enough to leave Northome at the hour they now do. Though the rumor of a night train refuses to down it is stated emphatically by those in high authority that there is no such service contemplated. That was considered at one time, but it has been turned down definitely.

Good looks bring happiness. Friends care more for us when we meet them with a clean, smiling face, bright eyes sparkling with health, which comes by taking Hollister's Rocky Mountain Tea. 35 cents, tea or tablets. H. P. Dunn & Co.

Real Estate Dealer a Suicide. Springfield, Ill., June 16.—Edward L. Groves, aged thirty-five years, a real estate dealer of this city, was found dead in a hotel here. He had committed suicide by taking carbolic acid.

Death From Lockjaw never follows an injury dressed with Bucklen's Arnica salve. Its antiseptic and healing properties prevent blood poisoning. Chas. Oswald, merchant, of Rensselaerville, N. Y., writes: "It cured Seth Burch, of this place, of the ugliest sore on his neck I ever saw." Cures cuts, wounds, burns and sores. 25c at H. P. Dunn & Co.'s drug store, Brainerd, Minn.

Manufactured by Enterprise Bottling Works.

When Doctors Dine Together

Is it coffee? Is it tea? No! Seldom indeed do they use these evil drugs. They know that they destroy digestion—weaken the nerves—encourage insomnia. The vast majority of physicians prefer pure malt and hop beer at meals, such as

Gund's Peerless Beer

This superb beer has been brewed for over half a century from the best malting Barley and imported Bohemian Hops by the celebrated "Gund Natural Process." Physicians knowing its commanding superiority over all other American beers not only approve of it for their own table, but heartily recommend it to poorly nourished and convalescing patients. The testimony of the World's greatest physicians prove that beer is undoubtedly healthy—for example we print the following:

Dr. Willis P. King, of Kansas City, formerly President of the Missouri State Medical Society, speaks of beer as follows:

"Beer to persons of moderate health, where used in moderate quantities, does not only increase weight and strength of body, but has the influence of aiding the digestive apparatus to digest other things taken as food. For nearly 40 years I have prescribed our best beers, ordering three to four glasses a day, in a great variety of ailments and the RESULTS have been wonderfully beneficial.

GUND'S PEERLESS Bottled Beer is procurable at all first-class public resorts and found in the homes of those most discriminating. Telephone at once and have a case delivered today.

John Gund Brewing Co.
LA CROSSE, WIS.

C. A. Rose, Manager, Brainerd Minn.

COAL DEALERS INDICTED.

Charged With Being in a Conspiracy in Restraint of Trade.

Cleveland, June 15.—The grand jury has returned indictments against ten of the most prominent coal dealers and firms of this city, charging them with being in a conspiracy in restraint of trade. The indictments are virtually the re-opening of cases found by the grand jury last fall which were later nolleed by Prosecutor Ross, whose administration ended Jan. 1.
